In *A Pilot's Story*, Captain Lim Khoy Hing brings readers beyond the headlines and humanizes aviation. His engaging storytelling offers a precious glimpse into the often-hidden dimensions of aviation as few people have access to the cockpit.

In his latest jottings, Captain Lim manages to transport readers back to an era where things were simpler, but no less exciting. For those wishing to understand the evolution of the Malaysian aviation sector, both military and civilian, this book is a gem. The author's lucid account of overall development from Malaya until Malaysia makes this book a compelling read. Definitely recommended.

Captain Chandra Mohan

I've had the pleasure of flying and working with Captain Lim Khoy Hing over several decades in aviation. In *A Pilot's Story*, he reflects with candour and humility on a remarkable journey—from early aspirations and military training to commercial flying across major fleets, and even an extraordinary late-life achievement in law. It's an authentic, thoughtful narrative filled with lessons on adaptability, perseverance, and purpose—one that will inspire aspiring pilots and captivate any reader who appreciates lived experience.
